

TELECOM Bretagne

Brest - Rennes - Toulouse

PROFILE

TELECOM Bretagne is one of France's largest schools of engineering. A public institution operating under the authority of the French Ministry of the Economy, Finance, and Employment, TELECOM Bretagne is accredited by the French national commission on engineering degrees and is a member of the Conférence des Grandes Écoles, the national association of independent schools of engineering and business. TELECOM Bretagne enrolls some one thousand top-notch engineering students, half of whom are from outside France, for studies leading to the master-level diplôme d'ingénieur or to a doctorate.

TELECOM Bretagne is a component of the Institut TELECOM of the European University of Brittany.

With a permanent faculty of 300 (150 of professorial rank) teaching on three campuses in Brest, Rennes, and Toulouse, TELECOM Bretagne provides top-quality education underpinned by research programs of international renown. An application partner of the École Polytechnique, the institution maintains a wide network of other academic partnerships in France and abroad.

A center for international research in information sciences and technologies

- 9 teaching and research departments: electronics; computer science; imaging and information processing; world languages and cultures; user interface logic; social and information sciences; microwaves; optics; and multimedia security networks, signals and communication
- 5 research laboratories, including two affiliated with the CNRS and one with INSERM
- 400 researchers (half of whom are doctoral candidates)
- Prestigious awards: Marconi 2005, SPIE 2006, and INSERM 2006; representation within the French academy of sciences

Photograph provided by the institution

Internationalism, a fundamental value of the school

- 86 international exchange agreements in 39 countries
- A dedicated international student office
- 4 master of science programs, especially designed for the needs of international students; graduates may elect to continue on for doctoral study at TELECOM Bretagne or another institution. The four MSc programs are:
 - Telecoms and electrical engineering
 - Computer science and mathematics
 - Design and engineering of convergent networks
 - Biomedical information engineering

Close relations with the business world

- 350 adjunct faculty are active in the business world; they practice what they teach
- 2 business incubators (in Brest and Rennes)

An ideally located campus and the perfect setting for the pursuit of academic excellence

The main campus of TELECOM Bretagne is in Brest, on France's Atlantic coast. Students have everything they need right on campus: housing, dining, athletic facilities (for 26 different sports!), libraries, and a career placement service to help students locate internships and employment.

IDENTITY FORM

www.telecom-bretagne.eu

Precise name of the institution →	TELECOM Bretagne
Type of institution →	Public
City where the main campus is located →	Brest
Number of students →	1197
Percentage or number of international students →	50% international students of 47 different nationalities
Type and level of qualifications awarded →	<ul style="list-style-type: none"> • Diplôme d'ingénieur (master) • Diplôme national de master (DNM, a nationally regulated engineering degree) • Master of science (MSc) • Mastère spécialisé (MS) • Doctorate
French language courses →	Yes
Programs for international students →	Yes
Programs in English →	Yes
Registration fees / year (for information only) →	Costs vary by program
Postal address →	Technopôle Brest-Iroise - CS 83818 - 29238 Brest Cedex 3
